

... our ability to resist and be free depend on it!

Seven anti-ICE demonstrators in Texas have been sentenced to 50-100 years in prison for a detention center protest in 2025 and one community member has been sentenced to **30 years** for moving a box of personal belongings that included anarchist zines. The defendants have been subjected to horrific conditions in prison: daily strip searches, solitary confinement, lack of access to medical care. All eight federal defendants and six other people are facing state charges. We need your help resisting this repression and helping bring these parents, community members, and loved ones home.

The charges stem from activities many of us have taken part in since ICE started terrorizing our communities: attending a demonstration, moving a box of zines, removing someone who's been arrested from a Signal chat. The case is a testing ground for a new level of repression that criminalizes dissent.

"What will you do in this time of great failures and great injustices? How will you help each other? How will you help yourselves?"

– Benjamin "Champange" Song, sentenced to 100 years

**THE PRAIRIELAND DEFENDANTS
COULD BE ANY OF US.**

These sentences are meant to have a chilling effect on our resistance. It's time to turn up the heat and fight for these defendants with everything we've got. If we don't meet this moment with solidarity and fierce struggle, so many more of us will meet similar fates.

What can you do?

We need all hands on deck to fight for these defendants' freedom. That means you. Here's some ways to support:

- **Learn more about the case**
(prairielanddefendants.com / freedes.net) and help spread the word. Pass out flyers. Organize an event to teach people about the case and how to fight repression. Spread art about it. Drop banners.
- **Have conversations with your community** about why cooperating with the police puts everyone in more danger.
- **Donate and organize fundraises** to support the appeal process and the state cases: givesendgo.com/supportDFWprotestors
- **Continue fighting** for a world without ICE! Get out and protest! Don't let the government scare you into inaction. It's time to be brave and fight back.
